

## NEW ADVERTISEMENTS.

PORTLAND, April 4, 1899.

It is a show of Crystal that we ask you to look at to-day, a rather extraordinary display of good glassware good enough for your own table.

Sharp competition among the blowers and a recent cheapening of the making process brings down the cost of production so we are able to offer these special bargains at a considerably saving over yesterday's price.

A hundred dozen thin crystal Tumblers, exquisitely engraved designs in border, at 50c a dozen.

Thirty dozen thin crystal Tumblers, medium size with dainty fluted designs, 60c a dozen.

Fifty dozen new shape lemonade or water Tumblers, thin clear crystal with plain cutting at base \$1.00 a dozen.

Twenty-five dozen same shape and size with finer cutting, at \$1.25 a dozen.

Forty dozen convex crystal lemonade Tumblers, at 50c a dozen.

Twenty-five dozen thin punch Glasses with handle, entirely new shape, cut edge, at \$1.00 a dozen.

One lot of heavy Bacarat Whiskey Tumblers, deep cut bottom, at \$1.50 a dozen.

One lot of cut glass water Tumblers, full size strawberry and diamond design, at \$3 a dozen.

Fifty dozen thin glass claret Goblets, at \$1.00 a dozen.

One lot of plain glass ice water Jugs, at 40c each. Two quart size at 50c.

The sale begins this morning and it's an unusual opportunity to replenish your stock at small cost.

Washington, April 4.—Acting Secretary Allen has received a letter from the manager of the Neptune company, the worst wrecked wrecking corporation, announcing that it is not possible to raise and repair the vessels of Cervera's fleet sunk near Santiago.

## HARRISON THE WINNER.

Elected Mayor of Chicago by Nearly 40,000 Plurality.

EX-GOV. ALTGELD MADE VERY POOR SHOWING.

Secured a Trifle Over 45,000 Votes—Election was Entirely Upon Local Issues and was Very Quiet—Opposition to Republican Machine Factor.

Chicago, April 4.—Carter H. Harrison was elected mayor of Chicago today by a total vote of 146,914, against 107,407 for Z. R. Carter, the Republican candidate, and 45,401 for John P. Altgeld, the Independent Democratic candidate. Harrison's plurality being 39,510.

In the last majority election Harrison was elected by a vote of 148,000 against 50,343 for Sears, the regular Republican nominee and 69,687 for Harlan, the Independent Republican.

The city council has been composed of 43 Democrats and 23 Republicans, and the Democrats will without doubt retain a working majority. The election was entirely upon local issues and was one of the quietest ever held here. The firm stand taken by Mayor Harrison against the proposed 50-year extension of the street car franchises was a strong element and his popularity gained him many votes from the Republican party, besides holding closely to him many of the Democratic party who might have cast their vote for the Independent Democratic candidates. Another fact that drew to him many Republican votes was the existing opposition to the Republican machine among the rank and file of the party. Thousands of votes were cast for Harrison that would have been received by Carter, the Republican nominee, had not the latter been backed by the machine.

Mr. Altgeld's daughter, Eudora, was in the city during the election. She was in the city since the trial opened and they sat side by side. She was in court today and was waiting to greet her mother when she came.

LOOKING FOR SOUTH POLE.

Important Discoveries Made by Antarctic Explorers.

New York, April 4.—The Brooklyn Standard-Union prints a copyrighted cable despatch from Montevideo, reporting the arrival there of the De Gerlach Antarctic exploring party on the "Belgica."

The despatch which is signed by Dr. Frederik A. Cook, is as follows:

Montevideo, S. A., April 14. The Belgica arrived here today reporting the arrival of the Antarctic expedition. All well. Our Antarctic voyage has been a complete success. Much new land in Weddell sea and open water found south of discovery. Advance volunteer was also seen. I came home direct by early steamer. The Belgica will not return for another winter as originally planned. We lost men by accident, but none by disease.

(Signed) Cook.

A despatch to the Associated Press from Buenos Aires today reported the arrival of the Belgica at Punta Arenas, Patagonia, and this, together with the despatch to the Standard-Union, was the first news of the party for 15 months. The expedition was commanded by Lieut. A. De Gerlach and Dr. Cook was the surgeon of the expedition.

The last communication from the expedition was from Ushuaia, the southern part of Terra del Fuego, December 30, 1897, stating that the Belgica had left for the south, but today's despatch makes it certain that the Belgica party was the first to winter south of the Antarctic circle.

CONTEFEITER DEMATERIALIZED

Boston, April 4.—Stellaire De Marco, one of the alleged Boston counterfeiters, and a man weighing 200 pounds, disappeared mysteriously in the Federal building today. An officer was taking three of them out hand-cuffed together. He turned to ring an elevator bell and when he turned around he found the man gone. Don't have your Carpets dragged round in the slush and half beaten by a boy. Our method is thorough, cleanly and correct.

THE WEATHER.

FORECAST FOR THE WEEK.

Local forecast for Wednesday: Fair weather; light northerly winds.

Washington, April 4.—Forecast for New England: Fair Wednesday; fair and warmer Thursday; fresh northerly winds.

THE GUILFORD TRIAL.

Prosecution Scored Several Points Yesterday.

Bridgeport, April 4.—Today's testimony in the Guilford trial was for the most part of a technical nature. Harry Oakes was again recalled to the stand and told the jury his last conversation with Emma Gill and what she said to him in reply. "That she would go to Bridgeport in the morning and have it over with," which proved a strong point for the prosecution. The defense battled strongly over the admission of this evidence, but Judge Wheeler ruled in favor of its admission.

W. J. Kingston, of New York, an expert penman and David N. Carvalho, who is also famous as an expert in handwriting, were among the witnesses today for the purpose of showing that the unsigned letter found in the Northampton post office by the father of Emma Gill after the death of the young woman, was written by the same person who had signed the Adams express money order delivery receipts and other letters believed to have been written by Mrs. Guilford. The letter in question was postmarked "Bridgeport, August 23," and was addressed to Emma Gill.

At the conclusion of the writing expert's testimony the letter was read to the jury. It directed Miss Gill not to come to Bridgeport until Monday, as the writer was not ready to receive her and likewise cautioned her to destroy the letter and any other communications she might receive from the writer.

Expert testimony on medical instruments that were found in Mrs. Guilford's house, was presented and it was testified to by the witness that such conditions as were found by the autopsy on Emma Gill's body could not have been produced by disease. A number of technical questions were then answered, tending to show that the condition of Emma Gill's body was disclosed by the autopsy, was caused by a criminal operation.

Mrs. Guilford's daughter, Eudora, was in the city during the trial. She was in the city since the trial opened and they sat side by side. She was in court today and was waiting to greet her mother when she came.

REPORTED THAT ADMINISTRATION WOULD PAY NO MORE THAN THE THREE MILLION AND THAT IT WAS INEXPEDIENT TO NEGOTIATE AN OUTSIDE LOAN—SEÑOR CISNEROS ONLY MAN TO OPPOSE DISBANDMENT.

Havana, April 4.—The Cuban military assembly, after voting to disband the army and to dissolve the government, was opposed by the military assembly. The voting was twenty-one in favor against one opposed. The muster rolls were left in possession of the executive committee of the assembly who will facilitate the preparation of copies for Governor General Brooke.

The army question is considered settled. "As the shadows of night fall over the city, we finish our work. So is Cuba's future clouded and dark. I take leave of you with sorrow and my last words are: May Cuba some day be free and independent." With these words General Fernandez Froyas de Andrade, president of the military assembly, closed its last session at seven o'clock this evening. The whole meeting was calm and dispassionate. It lasted four hours. General Sanguily's flight of oratory, in which he likened the members of the assembly to "a band of faithful workers devoted to Cuba's good, but finally vanquished by uncontrollable conditions," was received with applause.

## HAVE DISBANDED.

Cuban Military Assembly Closed Up Its Affairs by Vote of 21 to 1.

Army Question Considered Settled by Disbandment.

Commission to United States Returned Home Discouraged.

Reported That Administration Would Pay No More Than the Three Million and That It Was Inexpedient to Negotiate an Outside Loan—Señor Cisneros Only Man to Oppose Disbandment.

Havana, April 4.—The Cuban military assembly, after voting to disband the army and to dissolve the government, was opposed by the military assembly. The voting was twenty-one in favor against one opposed. The muster rolls were left in possession of the executive committee of the assembly who will facilitate the preparation of copies for Governor General Brooke.

With these words General Fernandez Froyas de Andrade, president of the military assembly, closed its last session at seven o'clock this evening. The whole meeting was calm and dispassionate. It lasted four hours. General Sanguily's flight of oratory, in which he likened the members of the assembly to "a band of faithful workers devoted to Cuba's good, but finally vanquished by uncontrollable conditions," was received with applause.

The assembly ordered the disbanding of the army in accordance with the details and methods of the disbandment. A new executive committee was then appointed to attend to the routine work connected with the commissions of Cuban officers and this committee will supply the muster rolls with the copies of the Cuban muster rolls.

Twenty-two members attended the closing session. Señor Salvador Cisneros of the Cuban republic at the meeting of the provincial delegates at Puerto Principe, September 2, 1898, and was ultimately succeeded by Señor Barcelmo Maso, was the only member to vote against the resolutions to disband the army, but today's despatch makes it certain that in any event the resolution to dissolve was unconstitutional and that he would never give up his position until the army was disbanded.

Señor Cisneros is a very old man, his voice is weak and his protests were hardly heeded by his colleagues.

Señor Villalon arrived this morning from Washington and the assembly was convened this afternoon in order to hear their report regarding their efforts to secure the disbandment of the army. The following were present: Señores Andrade, Cisneros, Despain, Farrago, Naves, Riva, Coronado, Villalon, Guiberto Gomez, Lacret, Sanguily, Vallente, Portela, Tirado, Portuondo, Betancourt, Hervas, Menocal, Trujillo, Yanes and Aguerre.

Señor Hevia made the following statement:

"On arriving in Washington, with Señor Villalon, I immediately sought Mr. Coen and asked him for a definite assurance as to carrying out the loan he had proposed, giving him until Friday afternoon to answer. In the meantime we sought an interview with the American Secretary of State, asking him either to increase the three millions or to authorize the assembly to contract a loan. The Secretary of State replied that neither course was possible and the matter closed in the hands of the assembly.

"The Secretary of State told us that the refusal of Gen. Portuondo to deliver the rolls at the request of General Brooke had made a very bad impression in the United States. Señor Villalon explained that the master had not been correctly reported, assuring him that General Portuondo told us that no officer or enlisted man can be detailed for duty in the canteen section to do the selling.

"I reported to the President today the subject of our conversation this morning and he directs me to say that he has nothing to add to the old communication which I then had the honor of making to you and Señor Hevia."

## WORKING IN HARMONY.

Powers Trying to Settle Samoan Difficulty.

Washington, April 4.—The German ambassador, Dr. Von Holleben, accompanied by Dr. Solf, the newly appointed president of the municipal council of Samoa, called at the British embassy today and had an agreeable meeting with the British ambassador, Sir Julian Pauncefote, and Mr. Elliott, of the embassy staff.

Later in the day Sir Julian called at the state department and had a talk with Secretary Hay. It was at once conjectured that the ambassador came to signify the formal acceptance by Great Britain of the plan of a high commission. But this was correct only in part.

The status of the negotiations, as given in the highest official quarters is that the principle of the commission is accepted by all three powers including Great Britain, but that the British government withholds formal approval of the commission itself until all the details of its authority are determined. This, it is explained, is in no sense a delay of acceptance, for no one government has offered something which the others must accept or reject. Instead of that, all three are moving forward in the most agreeable spirit toward a common understanding, each making its suggestions for the betterment of the plan, and no one laying down certain limitations which the others must accept at once.

Baron Von Buelow, the German minister of foreign affairs, returned to Berlin today, having been in the last position to judge the progress of these negotiations, say there is every indication that they will be satisfactorily closed before the present week ends and that the high commission will be an accomplished fact by that time.

YOUTH, BEAUTY AND MILLIONS FIGURE IN NEW YORK WEDDING.

New York, April 4.—Youth and beauty with millions of money were joined together in holy matrimony at noon today, when Virginia Fair became the bride of William K. Vanderbilt, Jr.

About 150 guests were present at the ceremony which was brilliant and which took place in the 55th street mansion of Herman Oelrichs, whose wife is a sister of the bride.

During the afternoon, the former executive committee resigned and the new committee was at once elected consisting of Señores Lacret, Hevia and Gualberto Gomez. This committee which is entirely unofficial will attend to matters connected with the officers' commissions.

General Andrade considers that there is no reason why General Brooke, now that the assembly is dead, should be unwilling to ask this unofficial committee to deliver the muster rolls. If any objection still exists in the mind of the governor general, Andrade suggests that the committee should hand the rolls to a member of General Brooke's staff.

ANTI-IMPERIALISTS.

Resolutions Adopted at Meeting of the League in Boston.

Boston, April 4.—A mass meeting under the auspices of the anti-imperialist league was held in the Tremont Temple this evening and was attended by a large and enthusiastic audience, and a number of prominent citizens of Massachusetts who spoke in denunciation of the course of the administration, heard their words cheered to the echo. At the conclusion of the speaking these resolutions were adopted:

First.—That our government shall take immediate steps toward a suspension of hostilities and an end to the present war, and in the event of a recognition of their independence as soon as possible, proper guarantees can be had of order and protection to property.

Second.—That the government of the United States shall enter an official assurance to the inhabitants of the Philippine islands that they will encourage and assist in the organization of such a government in the islands as the people thereof shall prefer, and that upon its organization in a stable manner the United States, in accordance with its traditional policy, will recognize the independence of the Philippines and its equality among nations, and gradually withdraw all military and naval forces.

CANTEENS NOT PROHIBITED.

Washington, April 4.—The secretary of war, recently requested the opinion of the attorney general as to whether section 17 of the act passed at the last session of Congress increasing the efficiency of the army prohibits the continuance of the sale of intoxicating drinks by the government in the canteen sections of the post exchanges, which are organized and maintained at the various army posts and encampments throughout the United States.</

# THE PRESS.

WEDNESDAY, APRIL 5.

Dr. Daily in his testimony before the court of inquiry yesterday completely disposed of one of the explanations of the war commission in regard to the bad beef on the transports. The commission claimed that lack of ice was the cause of the beef spoiling. But Dr. Daily shows that there was plenty of ice besides refrigerators on the ship.

In Brownson, Kansas, the people are so busy digging for zinc and natural gas that they have forgotten all about their city election, although there were three political parties to the city. As one of the parties is the Populist, times must be mighty good or mighty bad for its orators to forget an opportunity to declaim against the government.

Mayor Quincy of Boston is credited with a decision for a third term. As an astute politician the present Mayor of Boston has few equals. He has measurably succeeded in satisfying the two extremes of Boston's people, and has introduced many innovations in the line of municipal socialism. Although an ineffectual Democrat he balanced himself on the fence so artistically that everyone forgot to ask whether he was for silver or gold. He is of the old Quincy family and is credited with ambitions for the gubernatorial chair.

It was "capitalism" and not capital that Prof. Small attacked, as will be seen from the full report of his remarks printed elsewhere. And by "capitalism" he means the devotion of our entire energies both of mind and body to piling up money. An inordinate love of money and eagerness to get it so great that it stops at nothing—in short the setting up of the dollars as a god to be worshipped—is what Prof. Small rebuked. He freely admitted the necessity of capital if the world is to progress, and of combinations of capital. What he protested against was the trampling down of human rights in the mad race to rich.

Further details of the proclamation of the Philippine commission show that the abstract published some time since represented fairly the character of the deliverance. Our government will insist on supreme sovereignty over the islands, but will give the Filipinos as much self government as it thinks good for them. Unfortunately the experience the Filipinos have been having with our soldiers for some weeks past has been such as to make them rather suspicious of our methods of doing them good. They may, however, have been whipped into a sufficiently submissive frame of mind to be ready to accept what we offer.

Mayor Robinson's statement of the city's financial condition in his address to the city council on Monday night, shows the need of great care in making the appropriations for the ensuing year, and equal care to keep the expenditures within them. No good purpose is subserved, however, in cutting down the appropriations below what there is good reason to believe will be needed. There may be an appearance of saving in this process, but it is only an appearance. The money has to be spent all the same, and supplied later by a deficiency bill. The best rule for any administration to follow is to pay as it goes, and not leave unpaid bills for a subsequent administration to take care of.

As was anticipated would be the case, a great many Chicago Republicans voted for Carter Harrison for mayor yesterday. In preference to the Republican candidate, Zina R. Carter, and the result is his election by a large plurality. The fight was over electric roads, anti-politics, cut no great figure in it. Harrison's successful fight against the attempt of the surface roads to get an extension of their franchise for fifty years, had commended him to the masses of the people, and he got his votes yesterday. Altho' the strength was much less than anticipated, the silver men apparently refusing to be turned from the particular business in hand by the cry that Harrison was in league with Crocker and that his success would be a boon to Bryan.

The men who are supposed to have murdered Postmaster Baker at Lake City, S. C., over a year ago are to be put on trial this week before the Federal court. Baker, who was a respectable colored man of good education, was appointed postmaster at this place by President McKinley. Soon after his appointment he was warned not to take the office. He paid no attention to the warning, but began his duties. Then he was shot at but not hit, but subsequently a gang was organized, said to contain some prominent citizens, for the sole purpose of putting him out of the way. This gang set his post office on fire and brutally shot him and his lady to death. The only reason ever offered for this crime was that Baker was black. It was not alleged that he was of bad character, or had made himself offensive to the people in any way except by accepting this office. Some of the lynchings at the South during this extension that the man lynched has been guilty of a heinous crime. But there was nothing of the kind in this case. It remains to be seen how convincing is the evidence that has been collected against the men who are to be put on trial, and how ready the jury are to be convinced. Though the case is brought in the Federal court the jury must be taken from citizens of South Carolina. Whether a jury of this sort can be relied upon to bring in a true verdict in a case like this, even though under the eye of a Federal judge, is very questionable.

President Fred E. Richards of the Union Mutual Life Insurance company in an interview has expressed some interesting opinions about present business conditions. He thinks that there is no question about the prosperity of the State of Maine for the year. An immense volume of business is rolling across the country, and everything is promising. But there is also a danger from the fact that an unusually large

number of industrial securities have been offered to the people all at once. The revival of confidence and business has thrown into the financial arena an army of claimants for popular investment. Purchases are lively under the improved conditions. Therefore a large amount of money is taken from its natural channels. In 1899 Great Britain organized in this country for industrial and investment purposes companies stocked and representing \$940,000,000. Last year the United States ventures in this line aggregated only \$614,000,000. But in January and February of this year, under the new conditions confronting us now, there have been organized companies with stock aggregating 1,000,000,000. This stock has been offered to the public and with money plenty and cheap as it has been, there has been a grand rush to invest. With such a tremendous financial movement happening in the short space of two months it has been only by a wonder that the financial equilibrium has not been overthrown. Owing to these calls on the money supply, a large proportion of the available funds have been temporarily locked up. Under such circumstances where there is such a rush in one direction, there is always danger of the pendulum swinging back suddenly, although not necessarily to the extent of a bad panic.

April is a very variable month in the latitude of Maine. In the last twenty-seven years, as shown by the reports of the Portland weather bureau, the average mean or normal temperature for the month has been 49 degrees above zero, while the warmest April of the whole 27 was that of 1878, the average of that month being 49 degrees above and the coldest was that of 1874, with an average of 36 degrees below zero. The hottest April day in the last 27 years is given the 24th of that month, 1881, when the mercury stood at 78 degrees above zero; the coldest was April 1, 1874, with a record of 14 degrees below zero. The rain fall also varies considerably. The average precipitation for the month during the 27 years was 3.95 inches. The greatest monthly precipitation during that month being 1.04 inches. The greatest amount of precipitation in any consecutive hours was 3.32 inches on 15th and 16th of the month in 1884. From the sad March with which the clerk of the weather has favored us, we are led to expect a happier April, if nature has any sense of justice.

The idea which was first worked out practically when the Portland Company built for E. Moody Borton the Hoyle locomotive, seems to be slowly making its way in practical transportation. It is now proposed to build a single track road between Liverpool and Manchester. The mechanical features of the road are a single rail, elevated about four feet from the ground, and mounted on A-shaped steel trusses. The cars would be carried on wheels in the center, running on the single rail. While this is styled a single rail system, there are, as a matter of fact, four other rails, these being guide rails, two on each side of the single track. Stability of the cars is maintained by 32 horizontal guide wheels. The motive power proposed is electricity, using the trolley system. While the estimated minimum speed is set at 90 miles per hour, with a suitably constructed line and power stations speed of 120 to 130 miles per hour is anticipated with safety and moderate expense.

The ice trust marches on. Deeds were filed in the Kennebec registry Monday, covering extensive and valuable ice property in the towns of Chelsea, Farmington, Randolph and Pittsford, being given by the Knickerbocker Ice company of Philadelphia to the Knickerbocker Ice company of Maine. The latter was one of the companies which it was sought to merge into the American Ice company. The amount of property involved in this transaction was \$25,000.

The position of deputy collector of customs at Vanceboro is vacant and an examination is to be held at Bangor, April 7th, to fill the position under the civil service rules. Preference in appointment is to be given to residents of the Bangor collection district. The salary of the position is \$720 a year, and the incumbent must be a stenographer and typewriter.

The new law against "fake" drug stores hits in some unexpected places, as point new laws do. Many physicians, especially in the country, have small drug stores. These will not be disturbed; but no new stores of this kind may be started.

Commissioner of Pharmacy Partridge, of Auburn, states that this will not interfere with the supply of their own medicine.

The late Simon Strout of Cumberland, was a brother of the late Hon. A. A. Strout, of Portland. Their father, Eliza Strout, a Democrat, and their sister's husband, George Cleaves, (an uncle of the ex-Governor), a Republican, were candidates at one and the same time for representative to the legislature from Bridgton. Mr. Cleaves was the winning man in the friendly race.

The story that the Waterville and Wiscasset railroad will seek a water terminal at Rockland instead of Wiscasset does not sound reasonable. The Wiscasset railroad enterprises are hardly able to parade a full assortment of terminals.

The Good Templar brethren are a political party, a brief but lively campaign. The grand secretarship is the object of assault; and Grand Secretary Brackett is defending like Horatius at the bridge.

Hon. Charles E. Littlefield of Rockland, lectured at the Kim street Universalist church in Auburn on Sunday afternoon on "Good Citizenship."

## MAINE NEWS NOTES

Mr. A. T. Sloan, formerly superintendent of the Wood Kim Co., at West Paris has gone to Salem, Mass. He is succeeded by Mr. Denison of South Paris.

A new tramway for transporting coal from the wharf to the bunkers of the Maine Insane hospital at Augusta is to be constructed this season and ground will be broken as soon as the frost is out. The plan is to carry the coal up the hill in a series of buckets holding about half a ton each, supported on trucks running on a wire and operated by power at the upper end. It is estimated that a three horse power engine will do the work, although the climb is a sharp one. The distance is thirteen hundred feet.

## REAL ESTATE TRANSFERS.

The following real estate transfers have been recorded at the register of Deeds' office:

George E. Heath of Reading, Mass., to Angelo L. Lavoie of Portland, a certain lot of land situated in Portland near Brighton Corner, so called, formerly known as the lot owned by a certain person, called A street and by land of said Lavoie.

Henry B. Hartford of Standish to Augustus J. Stokely of Gorham, a parcel of land and buildings situated in Standish.

# TWO CHICAGO SENATORS Tell a Straight Story About Catarrh and Pe-ru-na.

Chronic catarrh often makes its approach in disguise. Before a person knows it he may become a victim of chronic catarrh. Its onset may be gradual, its development insidious, and at last the victim finds himself in the clutches of a tenacious disease. A slight cold, a tendency to sneeze, a puffiness in the nose and head, fullness or crackling in the ears, stringy mucus in the throat, slight cough or wheeziness, smothering during sleep—any one of these symptoms should be regarded as a warning.

What can be cured in the beginning in a week or two, by using Pe-ru-na, if allowed to become chronic, may require months of faithful treatment. You had better take Pe-ru-na now, for by and by you may be obliged to take it a long time in order to get well. Pe-ru-na is the remedy for catarrh; almost everybody knows that by hearsay, and thousands know it by blessed experience.

Two Senators from the great metropolis of Chicago, have something to say in regard to Pe-ru-na:

## Catarrh Nine Years.

HON. JOHN J. MORRISON. (State Senator, 15th District, Chicago, Ill.)

Hon. John J. Morrison, 223 Reaper Block, Chicago, Ill., State Senator from the Fifteenth Senatorial District (city of Chicago), writes: "I can strongly recommend Pe-ru-na. I took the medicine for five months and am now totally cured. I learned of Pe-ru-na through your advertisement. It has been two years since I was cured and I consider my cure durable. It cures when all other remedies fail."

"I beg leave to express for the good of the public my proof with the illustrious catarrh remedy, Pe-ru-na. I was distressed with catarrh for nine years. I tried many remedies without any benefit. My catarrh was located mainly in the head. I applied to several doctors but they were not able to cure me."

Pe-ru-na is not a cure-all. Nothing of the sort is claimed for it; indeed, there is no such medicine. Pe-ru-na cures catarrh wherever located in the body by its specific action on the vaso-motor system of nerves. These nerves control every blood vessel of the body, regulating exactly the amount of blood which is allowed to flow through them.

It is claimed for Pe-ru-na only that it restores the efficient action of the vaso-motor system of nerves. This is all it will do. But we insist that if it is taken persistently and according to directions that it will do this. But in doing this what a vast multitude of disorders is mitigated, not because Pe-ru-na is a cure-all, but because so many maladies depend upon a single cause. Pe-ru-na is single in its effect.

Mr. and Mrs. Frederick S. Walls of Vinthaven, are at the Fairmount.

The many friends of Mrs. T. Frank Houlton will be glad to learn of a slight improvement in her health.

Mr. Henry C. Harmon has recovered from his illness and resumed his duties as conductor of the Grand Trunk railroad.

"Better the Feet Slip Than the Tongue."

Slips of any kind are to be deplored, but there is one slip Nature never forgives.

It is the carelessness that ignores the signal that the body is in danger of wreck.

It may be that the kidneys or the stomach or the head gives the warning sign. But remember, the blood feeds every organ of the body.

Make no slip, but first tone up the system through the blood, and health will surely follow. Hood's Sarsaparilla is the best preparation man has devised to make pure, life-giving blood. It never disappoints.

Scrofula - "I was almost bedfast with scrofula and catarrh. Had no appetite. Hood's Sarsaparilla soon made me stronger and later all the sores disappeared and catarrh stopped." NELLIE OSBORN, 414 Lyon Street, Des Moines, Iowa.

Rheumatism - Rheumatism is a disease of the blood, and the acid must be neutralized to effect a cure. "I was troubled with rheumatism so badly that I could not walk. Hood's Sarsaparilla cured me." Mrs. MARGARET McDONNELL, Southbridge, Mass.

Malaria - "I was very low with malaria. My doctor did not help me and scolded because I would not stop work. Took Hood's Sarsaparilla and got sound and well. Can eat, sleep and work well." Mrs. J. A. SPOONER, Bath, N.Y.

Eczema - "My mother's face was covered with eczema, face, hands and feet were swollen. Hood's Sarsaparilla cured her. We keep it on hand and recommend it highly." Rev. E. E. JENNINGS, 907 Governor Street, Evansville, Ind.

Sick Headache - "I am now 22. Since I was 8 years old I suffered constantly with impure blood, biliousness and sick headaches until I took Hood's Sarsaparilla by doctor's advice. Low my life to it." ELVINA A. RICHMOND, Claremont, N.H.

Catarrh - "I suffered from childhood with catarrh. Was entirely deaf in one ear. Hood's Sarsaparilla cured me and restored my hearing." Mrs. W. STOKES, Midland, Tex.

COULD GET NO WATER.

Firemen Badly Handicapped at a Fire on Salem Street.

Shortly after 5 o'clock yesterday afternoon a man on West Commercial street discovered that the wooden house owned by Timothy Ronin, in the rear of 92 Salem street was on fire. He shouted the fact to some boys on the bluff on the edge of which the house stands, and Johnny Ronin pulled in an alarm from box 82. This house was occupied by Charles McSwegan, and at the time the fire broke out there was no one at home. The building has been on fire three times before within the last year and all of these fires are attributed by the people who live in the neighborhood to sparks from the match factory chimney. On the three previous occasions which this house has caught fire the blaze has been extinguished with slight damage to the roof. This time the fire got too much headway before it was discovered and the firemen were badly handicapped when they did arrive from the fact that they could get no water. Engine 3 hitherto on the hydrant at the foot of Orange, on Salem street. This hydrant is placed at the dead end of a four-inch pipe and it was impossible to get any water at all from this source for some time. An engine stationed on Danforth street forced water through about 1000 feet of hose and it was mainly by this line that the fire was extinguished.

The building was badly damaged by the blaze, the roof being almost entirely destroyed and the interior of the structure pretty well burned out. The loss to the building will probably amount to about \$800. The owner is insured through the agency of Anderson, Adams & Co., for about \$1000. Mr. McSwegan was not insured at all and the loss on his furniture will amount to about \$300. The alarm from box 82 soon after noon yesterday, was for a small fire on the roof of a house at the foot of High street, near York, owned by C. B. Dalton & Co. The house was not occupied. The fire caught from the chimney while the men engaged in making repairs were eating their dinner. The damage was about \$5.

BRIEF JOTTINGS.

Bishop Neely is to visit the Trinity parish next Sunday and will administer the rite of confirmation at the 10.30 o'clock service.

Lord Bros. of this city have leased the shore property formerly occupied by Lewis, Chase & Whitten, and are to engage extensively in the curing and packing of fish.

George P. Cornish of Cornish Brothers, this city, will return from Boston tomorrow where he has been making a study of the very latest methods of up-to-date tailoring.

The circle of Crescent Assembly, P. S., Greater Portland, will meet with Mrs. Herbert Mills, at her home, Chestnut street, Thursday, April 6.

The Christian Missionary Alliance will meet the Rev. D. W. LeLachur at 7.30 this evening in the Vaughan street church.

The rank team of Bramhall lodge, No. 3, K. of P., has been invited by Cumberland lodge, No. 66, to confer the rank of knight on three candidates at Oasis hall, Keightville, this evening. Members of the team will meet at Castle hall at 7 p. m. Arrangements have been made for a special car to take the team and all visiting knights to and from the Cape. Special car leaves Monument Square at 7.30 sharp. All knights are invited.

The dust was flying at Union station yesterday. It will soon be time for the lawns and fountains.

It is expected that the night force of police officers will be increased, and that officers will be stationed at Woodford, Downing Centre, Morrill, East Downing, Lunt's Corner, and Downing Point, making six in all. There will probably be no increase in the day force. Marshal Brown being the only man in duty.

The school committee are thinking of utilizing the vestry of New Jerusalem church for the pupils of the Park street school. Union hall is unobtainable and the vacant room in the Brackett street school house is pronounced unfit by the board of health.

The Deering board of trade will probably be annexed to the Portland board.

Pure and Sweet

Is the 'Skin, Scalp, Hair and Hands Preserved, Purified and Beautified by

Cuticura SOAP

It removes the cause of disfiguring eruptions, loss of hair and baby blemishes—viz.: The clogged, irritated, inflamed or sluggish condition of the PORES. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and most refreshing of flower odors. No other medicated soap ever compounded is to be compared with it for preserving, purifying and beautifying the skin, scalp, hair and hands. No other foreign or domestic soap, however expensive, is to be compared with it for all the uses of the toilet, bath and nursery. Thus it combines in ONE SOAP at ONE PRICE—namely, 25 cents—the best skin and complexion soap, and the best toilet and baby soap in the world.

Our baby, when one month old, had a raw place on her neck which spread slowly over the whole face, the face and neck being all raw meat, sometimes dry and then wet, and something awful to look at. The way the child suffered, mother and child never had any rest day or night as it constantly itched, and the blood used to flow down her cheeks. We had doctors and went to the dispensary without any result. By using part of a bottle of CUTICURA RESOLVENT, three boxes of CUTICURA Ointment and CUTICURA SOAP, the child was entirely healed. Now she is two years old and has a lovely skin, which we can be thankful to CUTICURA REMEDIES and nothing else.
